Related Documentation

These release notes relate to the following:

- Driver version 1.5.0.102 (WHQL-certified)
- Utility version 2.0.0.7

Use these notes in conjunction with the *OfficeConnect Wireless 108Mbps 11g USB Adapter Quick Installation Guide* (part number DUAUSB20075AAA01).

If you are prompted for the location of the device driver during installation, insert the accompanying CD into the CD-ROM drive, and then browse to the folder named

`/Driver`. Follow the instructions on the wizard to install the driver for your device.

New Features

The following features have been added in this release:

- WPA2 support – New encryption method that provides a higher level of security for wireless communication than WPA, its predecessor. WPA2 uses Advanced Encryption Standard (AES) with Counter Mode with Cipher Block Chaining Message Authentication Code Protocol (CCMP).
- Wi-Fi™ Multimedia (WMM) support – Enable WMM to help improve the Quality of Service (QoS) for audio, video, and voice applications over the wireless network. When WMM support is enabled, multimedia traffic is given higher priority over other types of traffic.
- WHQL-certified drivers – The drivers for the USB Adapter are Windows™ Hardware Quality Labs (WHQL) certified, ensuring that they are fully compatible with Windows.
